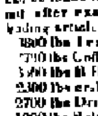
COMMERCIAL HOTEL,

Corner of Wall and Water Streets.......Bangor



THE subscriber would respectfully give notice to his friends and the public that he has taken a lease of the spacious and elegant building on the corner of Wall and Water streets and opened the same as a Hotel. It has been fitted up in superb style—contains several fine suits of rooms, parlors and chambers—and altogether will compare favorably with any hotel in Maine. Its locality is central and convenient for persons visiting the city on business and for those intending to take the steamers, being near the steamboat landing.

DEAFNESS CAN BE CURED!

COOPER'S ETHEREAL OIL—A prompt and lasting remedy for *DEAFNESS*, also for pains and discharge of matter from the Ears.

Hundreds of cases in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils, one of which, the active and principal ingredient is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of Deafness.

Persons who have been deaf for 10, 15 and even 20 years, have been permanently cured by using this Oil. In fact, so numerous and so emphatic have been the testimonials in its favor, that the Inventor claims for it the distinction of an Infallible Remedy in all cases, when the Ear is perfect in its formation.

PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U S Patent Office, Washington

22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients, and manufactures, as shall be intended to be patented or deposited therein, which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of fifteen years' practice—an extensive collection of rare works, documents, decisions, &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents, which in other respects would be difficult of attainment.

DR. CUMMINGS'S Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these other of vegetable origin are combined, designed to render them more active, and consequently more immediately effective

The Dock, or rather a species of it, now ranks as a medicinal plant, second to no one of the vegetable kingdom. With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound, he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract used to be relied on and least liable to decomposition, is prepared by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time, without the use of any other accelerating agent. None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofula, Erysipelas, Ulcerous affections, Eruptions, and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature intense application, exposure to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints, and Dyspepsia or Indigestion.

In diseases of warm climates, with which the proprietor became familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and a preventive.

This medicine has been for some time in use in his city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general to whom it is known.

Prepared only by Dr Stephen Cummings and sold at wholesale and retail by Joshua Hart, No 70 and 143 Middle street and Edward Mason, No 153 Middle street—only agents for Portland.

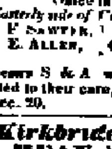
Kirkbride's Tattersall's HEAVE POWDERS:



A SAFE, SPEEDY AND PERMANENT CURE, for *Heaves, Broken Wind, Chronic Cough, Cords*, and all diseases which depend upon obstruction of the mucous membrane in the lungs, throat or head of the Horse, which affect the

Soundness of the Animal's Wind,

This remedy which has been used with such remarkable success in England, is now offered to those owners in the United States as a positive specific for those obstinate and distressing complaints. From the combination of powerful vegetable ingredients in its composition, it is enabled to complete successfully with disease in the hardy constitution of the Horse, and at the same time, is warranted to be perfectly safe and genial, is eaten greedily by the horse and other cattle, and does not at all inconvenience the animal, or deter him from usual labor. The following is one amongst many proofs we have of its efficacy, from one of the best Farriers in New York, and a gentleman whose knowledge in the medical treatment of Horses is very extensive:

New York, Nov. 1, 1847

Messrs A. H. Gough & Co

Gentlemen—You will recollect that I bought a package of your Heave Powders some time ago to administer to a valuable horse at livery in my stables, and that I was quite dubious of the wisdom of attempting to cure such a bad case of heaves, and did not, in fact believe there were any medicine for the complaint than those I had been in the habit of using during my extensive practice with Horses. But justice to you and your valuable remedy, requires me to say that that single package cured the animal of an aggravated case of Heaves as I ever saw, and his wind is now perfectly good. I believe the cure is a permanent one.

Respectfully, Ed FLOYD, 102 Laurens-st.

Messrs A H Gough & Co—Gents: I bought, about six weeks ago a package of Heave Powders to administer to a favorite horse, which had been troubled with heaves for more than two years. His case was a very bad one, and he never was able to perform the hard half his usual labor, and had resisted all the remedies ordinarily used for the disorder, this had no effect but to slightly diminish the violence of the heaving while taking the medicine, but that package of your remedy has completely eradicated the disease, and now his wind is as good as ever it was. It is a month since he has taken the Powders, and I am sure of his sound

Respectfully, GEO W DAVIS
Monroe, Middlesex Co, N J.

GREAT CONDITION MEDICINE.

Besides their specific action upon the air of the lungs and windpipe, the Tattersall's Heave Powders, from their great alterative and restorative properties, are as effectual in horses as sarsaparilla proves to be in the human race for the removal of impurities of the blood and predisposition to disease. Many a case of founder has been prevented and cured by a few doses of the Heave Powders, when it commenced after eating a very heated animal after a hard drive or exposure to inclement weather. They are warranted to cure the worst cough in a few days, and will wholly or nearly cure the worst cold by the use of 1 or 2 doses. As a condition medicine they are unequalled, especially when a tight hide, staring coat, loss of appetite, etc, denote a derangement of the digestive functions, presence of bots and worms in the alimentary canal, as described in the following certificates.

Messrs A H Gough & Co—That package of your Heave Powders that I bought of you for my horse's cough has entirely cured him, but in a different way than I expected. The first dose of it occasioned the worms that had been sticking brought away an immense number of worms from him, and I believe they were all the cause of the cough, ... was ... but he exhibited, for that package entirely cured him, I can personally recommend and knowing ... for ... certainly, I cheerfully recommend your Heave Powders for worms as well as heaves Yours, SAM'L ROBERTS.

East Hampstead, L. I., Oct. 28, 1847

☞CAUTION As several imitations of this valuable and popular remedy are about being got up under the name of "Heave Cure," "Heaves Compound," &c., persons are cautioned to beware of them, and to enquire for Kirkbride's Tattersall's Heave Powders."

No Stable should be without this powerful preservative. Price $1 per package of sufficient to cure one ordinary case, 6 for 5 dolls

DR. WARREN'S

SARSAPARILLA TOMATO AND WILD CHERRY

PHYSICAL BITTERS,

At 50 cents per Bottle.

SARSAPARILLA TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians and as a safe, speedy, and effectual remedy for *Scrofulous, Mercurial and Cutaneous Diseases*, Jaundice, Indigestion, Dyspepsia, Bilious disorders, Liver Complaints, Costiveness, Weak and Sore Stomach, Ulcers and running Sores, Swelling of the Limbs, Pains in the Bones, Tumors in the throat, Rheumatic affections, Salt rheum, Erysipelas, bad Humors, Eruptions on the face or body, Cancerous sores, King's evil, Chronic Catarrh, languor, debility, headache, dizziness, sallow complexion, and all those disorders which arise from the abuse of Mercury, or from an impure taint in the blood, no matter how acquired.

The extract here presented is procured after directions given by the celebrated Dr Warren, whose name it bears, and it will be found superior to any preparation of the kind now in use. It is highly concentrated, entirely vegetable and very finely flavored to the taste. The change which it produces in the condition and tendency of the system is speedy and permanent.

As a Spring Medicine for purifying the blood—strengthening the stomach and body and checking all consumptive habits, the Sarsaparilla, Tomato and Wild Cherry Bitters are entirely unrivalled

John S. Sayward,—Editor.

FRIDAY, MARCH 24, 1848.

The Ten Regiment Bill in the Senate.

On Thursday the 16th inst. Mr Calhoun made a noble speech in the Senate against the passage of the ten regiment bill. He declared that in the discussion of the subject he had put himself above party feeling or personal consideration. He was actuated by the single motive to contribute to correct the errors of a political character which have been committed in the origin and the prosecution of the war and to guard against the dangerous precedents which they were calculated to establish if not noticed or exposed.

He deemed the passage of the bill entirely unnecessary for the purpose of intimidating Mexico into a ratification of the treaty, and that the bill can only operate mischievously both in this country and in Mexico. It would add at least three millions of dollars to the expenses and give to the President a vast amount of patronage in the appointment of five hundred officers and this great additional expenditure would confer on the President and that too on the very eve of a Presidential election when the patronage of the government is brought into the highest state of activity. Such increase of patronage is a great evil as every man of every party will readily acknowledge if he would candidly express his sentiments, for, if there is any thing on which all are agreed it is that the Executive patronage is already enormous, and ought not to be increased.

He objected to the bill because the effect of it would be to encourage the President to prosecute the war and the effect of that would be the entire subjugation of the country throwing upon us one of two alternatives either to create a government by our own authority with which to treat—and this no one who duly appreciates the true principles of our system of government will ever adopt—or to hold it under our subjugation as a conquered country to be governed as provinces or to be incorporated into the Union.

He would have the army of the U. S. fall back upon the line of the treaty and tell the Mexican people that we intend to hold it, that we are satisfied if they are.

Mr Calhoun exposed in a masterly manner the entire absence of all authority in the President to carry into execution a system of imposts and laws which he has undertaken.

On the day following this able and convincing and unanswerable speech of Mr Calhoun, Mr Berrien addressed the Senate against the passage of the bill. This speech is spoken of as exceedingly forcible and eloquent. After he had concluded Mr Webster took the floor on the same side, but at the time of this writing we have only received a sketch of the commencement of his remarks. He took occasion to thank Mr Calhoun for the manly stand he took on one point the plain absolute unconstitutionality and illegality of the Executive government in attempting to enact laws by the Executive authority over conquered territories out of the United States.

Fire.

On yesterday forenoon a fire broke out in the attic of the large brick double tenement dwelling house on May street owned by Messrs W. T. Pierce & Co and by Hon Samuel H Blake. The house was occupied by Mr Rounds, and by several Irish families. The fire had taken strong hold of the attic before it was discovered. The house was speedily cleared of its contents and the fire department by the most vigorous action, kept the flames confined to the attic and roof which were destroyed. The house was not insured and the damage was probably between $400 and $500.

One of the members of Engine Co No 4, was injured by the engine smashing the bone of his right hand. One member of No 3 Engine fell from some part of the building and was carried home, but we have not learned to what extent he was injured. Several other firemen were slightly injured.

The exertion proved too much for the Chief Engineer of the Fire Department, Ebenezer French, Esq in his feeble health, and he was carried home quite exhausted, and wandering in mind.

☞ The people of Portland understand their true interest in promoting with all their might the completion of the Atlantic and St. Lawrence Rail Road. At a public meeting of the citizens on Monday last, called agreeably to the provisions of their city charter, they voted unanimously in favor of instructing the Mayor and Aldermen to petition the next Legislature for power to authorize a loan, and also for power to take stock in the road.

That road is destined to be completed and if the city of Portland cannot secure it the State of Maine must. It is of immense importance to Maine, of vital importance, we may say, that the road be completed, and Portland has only expressed a little in advance, the sentiment of the people of the State regarding the value of the road and of the manner in which the funds can be realized and the stock taken up.

On the Canada side according to an extract of a letter published in the Portland Advertiser the Railroad company are busily engaged in working for Parliamentary aid to the Railroad.—They ask the government to become security for the sum of £600 000 currency equal to $2,400,000, and will no doubt, succeed to the amount of $500,000 or more. The Upper Canada Great Western Railroad people with Sir Allan McNab at their head, are pledged to the support of the measure, in hopes of counter assistance for their road. The new ministry are pledged also.

☞ We acknowledge the polite and kind attentions of our friend Mr Charles T. Judkins, now in England, in sending us a large supply of English newspapers by the last steamer, all of which came promptly to hand and have afforded us much satisfaction.

☞ In the Congressional district, represented by Mr Adams, the Whigs have nominated Hon Horace Mann,—the Locos, E. H. Whitaker, and the Liberty party, General Appleton Howe.

A Manual of Botany of the Northern United States, from New England to Wisconsin, and South to Ohio and Pennsylvania inclusive (the Mosses and Liverworts by W. S. Sullivant,) arranged according to the natural system; with an introduction, containing a reduction of the genera to the Linnæan artificial classes and orders, outlines of the elements of Botany, a glossary &c. By Asa Gray, M. D. p. p. 710. Boston James Munroe & Co., 1848.

The surprising increase of Botanical science in this country is, certainly an indication that no ordinary pleasure is attained in making known the continually increasing new plants offered to view, and perhaps we may be accused, wi some degree of justice in neglecting the uses of plants, in this more alluring pursuit. Ever since the days of Hippocrates the venerable father of medicine, and the oldest botanical author, and also of Crateras, Theophrastus, Dioscorides, Galen, and a host of others up to the time of Linnæus, a period of more than 2000 years botany was little more than an application of the various species of plants to disease.—These also, with a few exceptions were named merely, and not described, so that we cannot, with any degree of certainty, ascertain the species for which those names were intended.

These names which had remained almost stationary, were confined particularly to the uses and not so much to any important characters by which plants are now studied. Names from the Greek and Latin languages and particularly descriptions in Latin were considerably in vogue.

Linnæus, however by degrees violated all the old rules in the determination of plants, as well also in their arrangement. He set out in an entirely new path. Changed the names with an almost indifference, changed the terms used in describing plants and often made or affixed new signification to well known words. To him we are indebted for many of the great improvements in the present system of botany particularly his description of species being derived as they were from characters visible in the plants themselves, while prior to him botanists were content in making up mixed characters of their uses the place where found, and their size compared with others as a method of determination.

The work before us is essentially Linnæan confined to one object the uses being entirely neglected but nevertheless, the best and most comprehensive manual of botany of the Northern States ever given to its cultivators. It embraces also, all the modern improvements in the natural arrangement of plants—a system discovered by Linnæus (but before him attempted by Ray) and studied so assiduously by Adanson, Jussieu, Lamarck and still more lately by DeCandolle, Agardh, Jussieu, Lindley, Brown and others.

This is the true method, and the young botanist by studying a few known plants with direct reference to the Orders, will have no difficulty in obtaining an insight into this system, and when once a knowledge of this arrangement is clearly understood (as it easily can be) the student will find no difficulty in ascertaining the family, genus and species to which his plant belongs.

Prof Gray has also added an artificial analysis of the Families founded on the easier and chiefly external characters, to aid the student at the point where he is likely most to need assistance namely, in referring an unknown plant to its proper order.

Another advantage to be found in this work is, the peculiar interest taken by the author to bring together at the head of each Order or Family "the more striking and distinctive points of the ordinal character," so that they can be immediately referred to without running through the whole section. Indeed, we find this method so faithfully carried into the descriptions of the species and so easy now will be the task in determining even the most difficult species from one another, with their striking points for guidance we cannot but expect a large accession of botanical laborers in the field, induced as it were, by the attractive character of this book.

Besides an introduction, containing brief outlines of the science, a glossary and other matter suitable for conveying the requisite elementary knowledge of botany, the work necessarily embraces a new department of the vegetable kingdom and for the first time attempted in this country (in the form of a systematic work) to bring them to notice.

Sir W. Jackson Hooker commenced his distinguished botanical career in that very study. Mosses. (Muscologia) and he published the second or third work known in Britain on this neglected tribe as early as 1818 though preceded by the works of Hedwig and Dillenius many years.

In this country we have but just begun and the field... The Mosses and Liverworts (Hepaticæ) are so numerous numbering nearly three hundred and fifty species so far as ascertained, and it is quite likely in the course of a few years, that its number will be increased to more than a thousand.

Sir Sullivant of Ohio stands in his country, at the head in these two orders. His treatise as combined with Prof Gray's is admirable.

There are three more Families which must necessarily be incorporated in our works to make our botany complete namely Algæ or Marine and fresh water plants Lichens and Fungi or mushrooms. The distinguished to ascertain these orders, Prof Bailey as Algologist Mr Edward Tuckerman Lichenologist and Rev M. A. Curtis Mycologist will undoubtedly secure to the country its already deservedly scientific reputation in these departments abroad.

Botany in our schools and academies has of late received but very little attention particularly in Maine. Our teachers are imperfectly acquainted with the science, and hence no true interest for the young or those who desire to make it a study, is induced.

We hope however that the present work will, not only excite them and others to learn more of our vegetation but be the means of making a number of excellent botanists.

TRIAL OF DR. V. P. COOLIDGE

For the Murder of Edward Mathews of Waterville.

SIXTH DAY.

MONDAY, March 20, 1848.

Joseph Freeman recalled—I saw Edward Mathews about 8 o'clock Thursday evening coming out of Williams's Hotel; he came out of the bar room and passed towards the Parker house.

Amasa Dingley recalled—I had further conversation with prisoner prior to murder about a subject, he came out of back office and said there would be a good place to deposit and the subject could be kept in a cask in the closet. I asked him if it would not scent the office, and he said he guessed not, there was spirit enough with it. There was a cask in closet.

Cross examined.—When I swore before the Coroner's jury I did not swear about a subject, I saw a cask in closet with iron hoops—about the size of half barrel. I afterwards saw one will wonder hence. Friday night I was in Coolidge's office from half past seven to eight o'clock. Dr Coolidge and Baker were present, I left at about 8 o'clock.

Mr Morrill here stated that the Government here rested the case.

Mr Noyes then proceeded to open the case in behalf of the prisoner. After urging upon the jury a careful consideration of the solemn importance and responsibility which devolved upon them—of divesting themselves of the prejudice and suspicion which had been thrown upon the prisoner—[illegible] of the evidence ... [illegible]

the evidence introduced and the inferences sought to be drawn from it.

1st. The time and place set up by Government are not such as would have been selected by any man of common discretion.

2d. The place of concealment not such as is consistent with the idea of guilt of prisoner.

3d. Mr Noyes then went into a long and minute examination of evidence to show that it was not proved beyond a reasonable doubt that the deceased came to his death by poison—by prussic acid, and that its presence was not detected in the stomach and system of the deceased.

4th. If the deceased fell by poison, it is not satisfactorily proved that it was through the agency of prisoner, and under this head Mr N. reviewed at length the testimony and various circumstances relied on by the Government, and contended that they were not of such conclusive character as to establish his guilt. Flint's story he contended was incredible in itself—that the body could not have been carried through Shorey's shop without disturbing cloth on cutting board or removing the chairs so as to be detected the next morning, neither could the body have been got over the crest of wood which would be shown to be within two and a half feet of the floor above—that at that time, according to his testimony that they were carrying down that body, another witness had testified that prisoner was seen in Water St. Flint had at various times denied all knowledge of the transaction—had, so sworn before the Coroner, and it would be shown that even since he testified before the grand jury he had given a different account of the manner of getting the body to the wood cellar—that Flint having either sworn falsely before Coroner's Inquest or at present trial was worthy of no credit and his testimony should be entirely set aside.

It would be shown that the prisoner had a large amount due him on notes and his books, some six thousand dollars—that he was doing an extensive business—that his books would show that within two or three months previous to the death of Mathews his business amounted to some $2500. These facts it was contended would show the entire absence of any such motive as alleged by the Government.

Mr Noyes here proposed to put into the case the certificate of the physicians made at the first examinations, for the purpose of showing discrepancies between that certificate and their evidence on trial—and part one of testimony of some of the witnesses before the Coroner, but the counsel for government contending for the whole of the testimony of each, their production was waived for the present.

Oliver Paine recalled—I was one of the Coroner's jury, its session was I believe 4 days. Thomas Flint was called before the jury and examined, I think on Friday first. He was examined I should think nearly half an hour at first; he was interrogated whether he knew anything of the murder, he said he had no knowledge of it or any circumstances, had no knowledge, and saw nothing about the office to excite suspicion that the murder was committed in that office. He stated that he saw Mathews once in the street after he returned from Brighton, but did not see him that evening; he was in the office until about 8 o'clock, and then left and went to Williams's tavern, where he played backgammon until a little after 9 when he took his light to go to his room, and met the Doctor in the entry, and then went with the Dr to the office to look up some medical cases for him, that he remained in the office until about half past ten, looking up some authority about a patient the Dr had at Skowhegan, that the Dr sat at a table with him. He said there was not any other person in the office while he was there; he was afterwards called before the jury a second time, and was before it some 15 or 20 minutes. He was again interrogated as to what he saw about the office, about a letter also. He said he saw nothing to lead him to believe the murder was committed in that office, and had no knowledge of any circumstances which might lead to suspicion. He was sworn when he first came before the jury. His whole testimony was not taken down in writing, Mr Smith saying that it would accumulate testimony unnecessarily.

Cross examined.—He did not go on and tell a story but answered questions.

Joseph Marston—sworn—I was one of the Coroner's jury. Heard the examination of Thomas Flint (This witness stated this examination substantially the same as the previous witness) said when he went to the office of Dr Coolidge that evening it was lighted up as usual—that door into the back office was open—saw no lung passed it on the floor in the back office, knew of no persons who could give any information about that deed. Cannot say but he said he saw Mathews in the office that day.

Benjamin Dyer, recalled—I was frequently in at Williams during the excitement—had conversation with Flint. He repeatedly told me, at different times prior to his examining before the Grand Jury that he knew nothing of the murder under oath. I saw Flint near where the body was found, and soon after. Some one suggested that the deceased might not be dead, Flint went to the body, took hold of the head, and said he was dead and his body cold. He did not say that he recognized the body. This was before the body was removed. I examined the wound soon after the body was taken out, and I should judge it was not three feet from the flooring overhead to the wood. It sloped off each way towards the door and towards the cellar stairs. I was frequently in Dr's office, and persons were in habit of calling in there evenings. I assisted in making schedule of prisoner's property.

Cross examined.—I cannot say whether wood was thrown up from behind the door to get the body out, cannot tell the places and time when I questioned Flint. He denied all knowledge at first but I still continued to question him, cannot swear to any conversation with him when any other person was present. At time of murder I was boarding at Dunn's. After the murder, I stayed two or three nights at Williams's. One night I stopped in the room with prisoner, Flint and Baker. We were then engaged in making out a schedule of prisoner's property. Baker was with us Wednesday and Thursday nights. We were both engaged in making out schedule. I cannot state exactly when Flint's father came. Saw him there, Thursday night.

Direct resumed.—Coolidge was watched during the excitement.

Samuel Brown, sworn.—I reside in Buckfield, I have known prisoner since the fall of 184 , when he came to Buckfield and there pursued his studies. He remained there until he came to Waterville, except while absent attending lectures. He studied with his uncle in Buckfield. I understand his father resides in Canton. I was well acquainted with him while at Buckfield, although not so intimate as some young persons. While there the character he sustained was good—very good.

Cross-examined.—I cannot say how much of the time he was absent in Buckfield, I think he left in the winter of 1843-4. He taught school one winter out of town. So that his residence there was not a very long one.

John Simmonds, sworn.—I have been acquainted with prisoner a father 35 years. I reside in Canton where prisoner was born. I have known him ever since he was born. He went from Canton to Buckfield. He lived with his father most of the time until 21. I know of his obtaining no education except at the town schools, and at his uncle who is an educated man. The greater part of his early years were farming on his father's farm. His reputation from the time of my first knowledge of him was unblemished, so long as I knew about him.

Isaac W. Wheeler, sworn.—I was employed and assisted in making out Schedule of Dr Coolidge's effects after he was arrested. Thompson F. was present. This was after the session of Grand Jury in Oct, and after Flint had testified. He asked him how he got the body down the stairs—and he said they put a mat over it. He did not say and I did not ask him what they did with the mat. He said they with us in appraising two days and a half. ... with which he had in a ... cloth ... said ... add ... that I saw him do it. Dodd was not there all the time.

Cross examined.—I should think he filled up about a dozen vials—sixteen—I don't know whether there ... I was there to assist ... told him he had better fill them all up at once, for the time he spent was worth more than the medicine.

Flint told me about the arrangement and among others Dr Coolidge heard. He said they had put them in a sack—up in a bottle over the ... was that they might have put him in a sack. I did not tell it to Doolittle. Do not know whom I told this—I have spoken of it since I have been down here to Mr Noyes. Flint put the vials into his coat pocket—all put under a pocket case made for the purpose.

Chloroform Toothache Drops.

It is well known that "CHLOROFORM" has superceded (in a great measure) the use of Ether, as an allayer of pain, and is now used by the best Surgeons and Dentists in preference. A celebrated Chemist (and one of the first manufacturers of Chloroform) has discovered that "Chloroform" with other simple ingredients, will instantly cure the TOOTHACHE. After testing it in many cases it has never failed to give relief, there is no possible danger in using it, as it will not injure the sound teeth a particle. All that is necessary in using these Drops, is to saturate well a bit of cotton or lint, and place it in the cavity of the tooth. Relief will be immediate.

Griddiness and Dizziness.—Wright's Indian Vegetable Pills are one of the best medicines in the World for the cure of giddiness, because they purge from the body those stagnant and corrupt humors which, when floating in the general mass of the circulation, are the cause of a determination or rush of blood to the head, giddiness, headache, loss of memory, dimness of sight, drowsiness, pain of the head and many other symptoms of a loaded and corrupt state of the blood.

Wright's Indian Vegetable Pills are also one of the very best medicines for the cure of indigestion, and therefore will most assuredly restore the body to a state of sound health.

Beware of Counterfeits and Imitations! *Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.*

BY THE LAST MAIL.

CONGRESS.

WASHINGTON, March 21

In the Senate Mr Hale presented a petition from citizens of Pennsylvania, praying for an immediate peaceable dissolution of the Union. It was laid on the table.

Mr Atherton moved to take up the deficiency bill, which motion was agreed to.

Mr Badger offered an amendment, and moved to strike out the mission to Rome.

After a protracted discussion, between Mr Foote and ... the question came up on Mr Badger's amendment, which was taken by yeas and nays, and decided in the negative.

Mr Hannegan moved to amend the bill by substituting minister resident. The question was taken by yeas and nays, and decided in the negative.

After a slight amendment, the bill was read a third time, and passed.

The loan bill is the special order of the day for to-morrow. Adjourned.

In the House—Mr Clingman rose to a privileged question. He moved to reconsider the vote respecting the printing of the message and the correspondence of the treaty, and said the correspondence was garbled by the administration. He wished to publish the whole or none.

Mr Jacob Thompson rose and defended the administration. He asserted that the correspondence was not garbled, that a passage was omitted, because of the Perote court.

Mr Haskel commented with brevity upon the administration in regard to the war and the treatment of Gen Taylor. He charged the President with all the blood that was spilt in the contest.

Mr McLane replied.

Adjourned.

From Tabasco.

The Schr Gov Anderson Capt Trainer arrived in port yesterday from Tabasco, which place he left on the 3d inst. He reports every thing quiet. Capt Boyle of the U. S. Schooner the name of which Capt Trainer does not recollect captured two Mexican Schooners loaded with cocoa and other merchandise, on the 28th ult. Their cargoes were valued at $16,000.—[N. O. Pic.

Gen. Scott.

The parting of this veteran chief with the army after the arrival in Mexico of the order suspending him from command, is represented as the most affecting scene ever witnessed since the days of the revolution.

The steamers Paul Jones and Talma have been snagged on the Mississippi, by striking a Polk stalk. The boats were a total loss. No lives were lost.

Mutual Benefit Life Insurance COMPANY.

—OFFICE No. 2 GRANITE BLOCK—

EAST MARKET SQUARE BANGOR.

THE affairs of this Company are in the hands of business men favorably known to the community who have permission to refer to the following gentlemen in Boston

Hon J. C. Rogers,	Saml. A. Appleton Esq
Hon S. Fairbanks,	Mess J. E. Thayer & Bro
Robt G. Shaw Esq.,	Johnson Sewall & Co
and to the following Gentlemen in Bangor:	
Hon Edward Kent,	Charles Hayward
James Crosby	Joseph Bryant,
Gen S. F. Strickland	

This Company offers the following advantages:

1st. When the premium is over fifty dollars annually, one fourth may be paid in cash and three-fourths in a secured note at twelve months, with six per cent interest, or it may be paid half yearly quarterly, or monthly.

2d. Parties taking life policies, and paying fifty per cent of premiums in cash, and those taking policies for a shorter period, and paying every per cent. in cash, (if over fifty dollars per annum) may give their individual notes for the balance, if satisfactory to the officers.

Whole number of policies issued in 38 months to the 1st of January, 1848, 4187.

Whole amount of premiums thereon, $446,324 92.

Dividend of profits, January 1847, 36 per cent.

This Company has now been about 3 1-2 yrs in operation and it is a gratifying circumstance that its progress has fully tested the principles adopted by its managers and thus far more than realizes the most sanguine expectations of its friends.

Its remarkable amount of business, which is without a parallel in the history of Life Insurance shows that it is gaining in public confidence and that there is an increased disposition in the community towards its beneficent operations.

Permanent Cure of Dyspepsia and Habitual Costiveness.

To Dr Ralph.

DEAR SIR—I have, myself, almost an occasion for your Constitution Pills. I have used them any six years, on occasion dictated, and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach. From habitual costiveness, and the vexing attendance and slimy stools I am completely relieved. The multifarious symptoms of Dyspepsia, too, which I was even too well acquainted, have so entirely passed away, that I hardly know what the were. Any one you can make of this, or a more full development of my case, is at your service.

Besides these splendid cures, your book (Family Physician) and Pills have been the only physician in my household for years.

Their efficacy in my febrile attacks, and yours and your sons' pills for your Pills as a family medicine, is unrivalled.

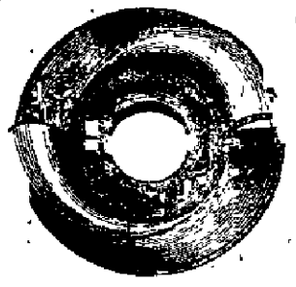
Patent Mill Wheels.



Timbey's Patent

Two Vent Cast Iron Water Wheels,

—FOR—

SAW MILLS,

Invented by T. R. Timbey of Cato N. Y.

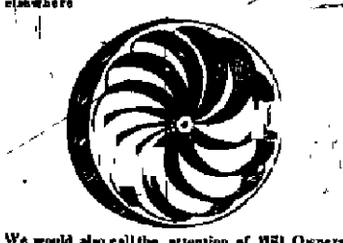
THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them, with the same head and quantity of water applied, as possessing and combining more *Strength and Speed*, and giving a more *uniform* and *Steady Motion* "in and out of the cut" (and therefore not liable to break cranks,) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the apertures larger and allows the "drift stuff" to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere



We would also call the attention of Mill Owners and Operators to

Valentine's Patent Reversing Centrifugal Water Wheel,

—FOR—

"UPRIGHT" SHAFTS,

WHICH are adopted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts, now used.

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A. BEARD, Esq., *Civil Engineer*.—Lowell, Mass. who is well known as one of the most scientific and experienced practical Engineers in this country.

"This wheel is formed with curved floats the number depending upon the size and work of the Wheel, each extending as far inward (to Wheel) that when the water arrives at the jet its pressure is so far exceeded that it falls very nearly inert from the Wheel. The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel, so that it has no downward pressure upon the Wheel, which stands perfectly free in the column of water, and by this arrangement all the friction at the step and bearing of the Wheel is avoided, and as much of the power saved, which in the ordinary mode of operation is wholly lost.

"This Wheel is adapted to low as well as high heads of water, and will run as well in back water as out of it, providing the bear rings is a freshet as fast as the back water. But a Wheel with the jets rightly gauged for a high head will not answer for a low one, and vice versa, for as the head increases, the width of the jets should be proportionably decreased, so that the water may not issue to waste, and not give its best effect to the Wheel.

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels, and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless, is not liable to need repairs, easily accessible when they are needed, costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop.—Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel.

ITHAMAR A. BEARD, *Civil Engineer*."

Graefenberg Company's Office,

50 Broadway, New York,........January 1st, 1848.

THE very great increase of the Graefenberg Company's business in New England, has rendered it necessary to reorganize the General Agency there. This is therefore to certify, that the *New England Branch of the Graefenberg Company* is now established at No. 156 Washington st., Boston, and that Mr. EDWIN C. BARNES is duly appointed Secretary of said Branch, and that he is authorized to establish Local Depots and to grant rights to vend the company's medicines. Every Agent must have a certificate with the seal of the Company thereunto signed by its Secretary, and countersigned by the aforesaid Branch Secretary. No one is authorized to sell the Company's Medicines without such certificate.

EDWIN BARTON, *Secretary.*

GRAEFENBERG MEDICINES.

The undersigned is fully prepared to establish a GRAEFENBERG DEPOT in all places of importance in New England, (except the State of Connecticut and that portion of Vermont west of the Green Mountains) and also in the British Provinces of New Brunswick and Nova Scotia. Immediate application should be made either personally or by letter. As there will ordinarily be but one Depot in a town or village, the Agency will be very valuable.

The leading article to which public attention is invited is the

GRAEFENBERG VEGETABLE PILLS

of which 30,000 boxes are sold each and every week. The following complaints yield with certainty to their power: *Asthma, Bilious Complaints, Colds, Costiveness, Dyspepsia, Erysipelas, Imperfect Digestion, Fluor Albus, Green Sickness, Heartburn, Headache, Jaundice, Liver Complaints, Rheumatism,* and all chronic diseases of the *Stomach.* In all CHRONIC COMPLAINTS the most implicit reliance may be placed upon them. Price 25 cents a box.

The names of the other Medicines are as follows.

THE CHILDREN'S PANACEA

For summer complaints, dysentery, and all other affections of the stomach and bowels, it is infallible. Price 50 cents a bottle.

THE GRAEFENBERG SARSAPARILLA COMPOUND

Warranted to make two quarts superior to any in the world. Price one dollar a bottle.

THE GREEN MOUNTAIN VEGETABLE OINTMENT

Wherever inflammation exists this Ointment is a positive and speedy cure. Price 25 and 50 cents a box.

THE GRAEFENBERG EYE LOTION

For disorders of the Eyes this Lotion has no equal. For violent inflammation, weakness, or foreign substances in the eyes, this an unfailing remedy. Price 25 cents a bottle, with full directions.

THE GRAEFENBERG HEALTH BITTERS

Sovereign to build up the uncreated system, to restore the appetite, and clear the skin. Price 25 cents a package.

THE CONSUMPTIVE'S BALM

This most extraordinary article is infallible positively in *Consumption, Bronchitis and Bleeding at the Lungs.* It is only sent as ordered, at $3 the quart. Consumptives may be sure of finding in this article that which will not disappoint their hopes.

The Graefenberg Gazette published by the Company for gratuitous distribution, may be had on application to any one of their numerous Agents.

DR. UPHAM'S

Vegetable Internal Remedy

FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles, Inflammation of the Liver and Spleen, [illegible] Weakness of the [illegible] Impurity of Blood, [illegible] of Ladies.

THE ELECTUARY,

[illegible] by Dr. A. Upham, a distinguished Physician of New York city, is the only really safe and successful remedy for this distressing and dangerous complaint [illegible] offered to the American public.

[illegible] it is an INTERNAL REMEDY—not an external application [illegible] It is a positive cure—*speedy and permanent*—[illegible] convenient medicine to take, and improves the general health [illegible]

[illegible] all external applications [illegible] REMOVING THE CAUSE, renders the cure EASY and PERMANENT.

INFLAMMATORY DISEASES.

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine of superior value for all other diseases of an inflammatory character, with a determination of blood to any particular part or organ. In inflammation and congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, in inflammatory and mercurial Rheumatism, it is a Sure Medicine. [illegible]

IMPURITIES OF THE BLOOD.

For all impurities of the Blood arising from the improper use of Mercury, or other causes, for all diseases of the Skin, and Scrofulous Affections, in all cases where the blood is powerfully determined to the head, producing dizziness and distress, DR. UPHAM'S ELECTUARY [illegible]

TO MARRIED LADIES.

[illegible] Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c.—The Electuary is perfectly safe for Pregnant Ladies, and the most useful cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION, but will ensure an easy time, a safe delivery, and a sound constitution to the offspring.

CURE FOR LIFE GUARANTIED.

The Electuary contains NO MINERAL Medicine; no Aloes, Colocynth, Gamboge, or other powerful and irritating purgative. No fear of taking cold while under its influence, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving valuable information respecting this Medicine may be had of Agents, gratis.

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me., March 14, 1847.

Dr. Upham—My dear Sir,—I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a perfect martyr to the Bleeding Piles for 10 years past, so much so that I became reduced to almost a skeleton, with loss of appetite, and general derangement of the digestive organs. My eyesight became affected, and in fact I was a perfect invalid. I was obliged to give up my business. I had tried all kinds of medicine, had the best advice the doctors in Boston and this place could afford, spent much money—and twice submitted to painful operations. I had become perfectly tired of life, and at the urgent request of my friends I was induced to try a box of your medicine. The first I found to relieve me slightly, still I persevered, and purchased a second, and I assure you, when I got half through, I found myself getting well; still I kept on, and now I am a well man. My dear Sir, language cannot express the heartfelt thanks that I am once more restored to health, and now in a condition to support my large family, depending on me.

You can use this letter as you please.

Yours respectfully, SAMUEL CHARLTON.

WERE RETAILED in Boston by Gardner Chilson, in the short space of six months, and a large number have been sold by myself in this city. This Stove is not equalled by any other store in the United States, and the unparalleled sales it has met with fully bespeak its unparalleled merits.

HOUSE-KEEPERS should be sure and examine this superior Stove which has won the admiration of several thousand house keepers the past season. It has more real and useful improvements than all others combined. The fire brick Oven top has proved to be of great value in absorbing the steam and causing the bread to rise and bake light (equal to the house brick oven.) The brick is found to be more durable than the iron top. It also equalizes the heat around the oven, and a much more even bake is produced in this stove than any other stove known. It has a most perfect arrangement for roasting in front. The Summer arrangement for broiling, boiling, toasting, &c., is complete. The grate clears itself, discharging the ashes into the ash pit. The flues are large, and so arranged as not to fill up with ashes. It is surprising to see how small an amount of fuel it requires to perform so great a variety of cooking. Its inviting appearance, substantial construction, and general good qualities, have set it forth to be

JULES HAUEL'S

PREPARATIONS!

TRY THEM, AND JUDGE FOR YOURSELF!

TO THE PUBLIC.

Wonderful! That's Right—A proper Principle adopted.

YOU cannot object to giving my articles a trial. If they are not found to be as represented, return them and your money will be cheerfully refunded. Remember, there is no quackery—no humbug—here. A trial will cost you nothing,—as it may cure or humbugged it will be myself. With the utmost confidence I recommend to the particular attention of the public the following articles: First—

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleanses the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. It excites the scalp to a new and vigorous action, cleanses it from scurf and dandruff, and its effect in the restoration and growth of the hair is unequalled by any other preparation of the kind. Second—

MY EAU DIVINE DE VENUS AND NYMPH SOAP.

Composed of an Eastern Botanical Discovery of Surprising Efficacy, for rendering the SKIN SOFT AND FAIR, as well as imparting a Delicate Roseate Hue to the Complexion.

No lady's toilet is complete without this article. Its effect on the skin is strikingly beautiful; it removes all harshness, softens the complexion, and leaves a delicate roseate hue that cannot be surpassed. Third—

MY SHAVING CREAM.

"It is a luxury to shave with Jules Hauel's Premium Cream."

This Cream is acknowledged by all who have used it to be superior to any in use. It produces a fine and rich lather. It does not smart or irritate the skin, on the contrary, it is very soft and highly emollient. No person will use any other, after once using this admired preparation. Fourth—

MY DEPILATORY POWDER.

This *Powder* has never failed to produce the desired effect. Its composition is infallible, and warranted to remove superfluous hair. Many ladies have used it, who were afflicted with hair on the sides of the face, arms, &c., giving a masculine turn to the features, and who testify of its happy effect. Fifth—

MY CELEBRATED VEGETABLE LIQUID HAIR-DYE.

A Chemical Result, to enable persons to dye their hair instantaneously, without the least inconvenience.

"My white hair has been changed! Be [illegible] by using one box only of Jules Hauel's celebrated 'Vegetable Liquid Hair Dye.'"

For changing red or grey hair, whiskers, eye brows, &c., to a brown, black, or chestnut color. The slightest evil consequences need not be feared from its use—It is altogether harmless. This composition is the only one ever used by the science of chemistry, to dye in an indelible manner, the various gradations of color, without danger or inconvenience, and has justified the liberal patronage and unlimited confidence of the public.

☞ *Beware of Counterfeits!* Ask for "Jules Hauel's Vegetable Liquid Hair-Dye," if you want the genuine article. Sixth—

MY UNRIVALLED ROSE TOOTH PASTE,

Is universally sought after, for the pearly whiteness it gives to the Teeth, without the slightest injury.—Seventh—

MY CELEBRATED PERSIAN OR CHINESE POWDER.

Patronized by the Fashionable World of the United States and under the immediate patronage of the Ladies.

This powder is unequalled for the nursery, for restoring, beautifying and preserving the complexion, rendering the skin delicately white, smooth and soft, prevent sunburn and eruptions, chapping and other [illegible] Travellers and residents in warm climates will highly appreciate this grateful appendage to the toilet.

NINE HUNDRED DOLLARS REWARD!

Will be paid to the person who will prove that Jules Hauel's *Vegetable Liquid Hair-Dye* is not the best,—the very best yet known in this country or in Europe.—This valuable discovery will enable a person to dye instantaneously the hair or whiskers in a few minutes, without the least inconvenience. This preparation is warranted not to wash out, nor to injure the health of the hair, and restores all [illegible] brilliancy.

From a celebrated Chemist of the City of Philadelphia.

"Hauel's Eau—It is with a high degree of pleasure that I furnish you with my testimony in favor of your *Eau Lustral Hair-Restorative.* I have been surprised by its wonderful and [illegible] results, and have no hesitation in saying that I believe it to be the most valuable and extraordinary discovery ever known for restoring and reproducing a fine and luxuriant head of hair. In regard to the *Nymph Soap, Hair-Dye, Rose Tooth Paste, Depilatory Powder* and *Shaving Cream,* I must say that they are scientifically compounded, and that it is a real luxury to use them. Yours, &c.

JOHN PARK, Chemist.

President of the Manufacturers' and Mechanics' Bank, Philadelphia.

Mr. JULES HAUEL."

Try it! Try it! It is furnished Gratis!

The most positive and convincing proof of the superiority of an article depends on the favor and satisfaction it has received from those who have used it.—With respect to my *Shaving Cream,* it is always used with satisfaction, and has everywhere met with universal approbation.

Those persons who have not made use of this delightful preparation may, by calling at the Store of the Proprietor, No. 120 CHESTNUT Street, receive, without charge, a small box for trial, as I am determined to let every one judge for themselves.

Prepared and sold, *Wholesale and Retail,* by

JULES HAUEL, Practical Chemist and Perfumer.

An Extract from the Report of the Judges of the "Franklin Institute of Pennsylvania."

"After a minute and careful examination of the preparations submitted to our notice by Jules Hauel, Hauel, Chemist and Perfumer, of the city of Philadelphia, we do not hesitate to pronounce them truly valuable preparations, well calculated for the toilet."

READ THE CERTIFICATE.

"The Franklin Institute, of the State of Pennsylvania, for the Promotion of the Mechanic Arts, have awarded to Jules Hauel, of Philadelphia, their Testimonial of their approbation for the skill and ingenuity displayed in the manufacturing of his celebrated EAU LUSTRAL HAIR RESTORATIVE, and other perfumery, deposited at their late Exhibition of Domestic Manufactures in the city of Philadelphia.

From CONSTANT GUILLOU, Esq., Attorney at Law, and Notary Public, Philadelphia.

"From personal acquaintance with Jules Hauel—an experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations. On trial of them in my own family, and some of them personally, I have more than realized these favorable anticipations,—they are what they profess to be, skilfully prepared and compounded. I have at all times since my experience, been convinced of the great merit of the *Eau Lustral Hair-Restorative, Shaving Cream, Nymph Soap,* and, in fact, all the popular preparations of Mr. Hauel.

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public. They are, in their way, invaluable.

CONSTANT GUILLOU."

From DANIEL J. DESMOND, Esq., Attorney at Law, Consul General of [illegible], Vice Consul of Austria, [illegible]

"To Mr. JULES HAUEL.

Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony [illegible] of your inimitable preparations. On trial of them in my own family, and some of them personally, I [illegible] that they are what they profess to be, skilfully prepared and compounded. I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, [illegible] [illegible]

DISEASES OF THE Throat and Lungs.

COUGHS and Colds, the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy, and many other dangerous diseases, are too often neglected until the foundation of the fatal Complaint is laid deep in the system. A Physician is then called in, who administers a few Palliatives, but declares the disease incurable, and the Patient is confirmed in [illegible] too, does [illegible] why does he do so? Simply because he does not resort to the proper remedy; but trusts more to his skill as a Practitioner rather than the infallible evidence of experience and the most abundant testimony. On this basis is the only true one, the efficacy of

DR. VONDERSMITH'S INDIAN COUGH BALM *and Lung Balsam,*

have been thoroughly established. Let those who doubt, read the following testimonials which are merely samples of hundreds of the same nature.

CURED,

Of Twenty Year's Standing!

CITY OF NEW YORK, July 21st 184[illegible]

This is to Certify that I, Nelson Larrabee, of Jersey City, have been subject to a dry hacking cough and a pain in the side and chest, attended with night sweats and general weakness of the system for a period of twenty years, and pronounced INCURABLE CONSUMPTIVE, but by the advice of regular physicians nor the many advertised remedies I have taken have been of any permanent benefit and I was [illegible] hopelessly to the progress of my [illegible] when I was persuaded to try Dr. F. W. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the aid of which all my symptoms have been removed and I have been wonderfully restored to the blessings of health, and the prospect of a prolonged existence.

In gratitude for which and in the hope of benefiting others, I solemnly testify to the facts in this certificate.

INFLAMMATION OF THE LUNGS.

New York, June 19 1847.

DR. VONDERSMITH—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold which settled on my lungs. I was unable to attend to my business during the day. I had bad spells so that I thought I could not possibly survive unless I could get relief. The excessive night sweats had reduced my whole body to a skeleton. I expectorated white frothy mucous, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I consented, when I had used it about one week my cough decreased considerable, which gave me great hopes. I continued with the medicine according to directions and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present time. I sincerely believe had I not made use of Dr. V.'s invaluable Medicine, that I would be mouldering in the silent grave. Therefore I believe that I am doing nothing but justice, in stating the above facts, so that you may shew it to all the afflicted, who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who may call upon me.

Your grateful patient and friend

CONSUMPTION

STATEN ISLAND, June 10th, 184[illegible]

DEAR SIR—I take great pleasure in giving you my certificate. Last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucous. Some days I raised a half pint of mucous streaked with blood. I have been under the treatment of a dozen physicians; was recommended by Dr. Mitchell of Philadelphia to use a breathing tube, I purchased one, I only made use of it for one week, it was the cause of bringing on hemorrhage of the lungs, which reduced me so much that I was unable to set up; my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vondersmith's Medicine recommended by a young by a person whom he had cured. I sent for half a dozen bottles. I received great benefit from them, which induced me to purchase a dozen bottles. I used according to the directions, and it cured me perfectly sound.

Yours, &c. ROBERT WILLSEY.

WINER'S

CANADIAN VERMIFUGE!

A CERTAIN REMEDY FOR WORMS.

THIS remedy is safe in its operation and a certain family addition stores than a purifier.

THE GREATEST CAUSE OF DEATH among children is to be attributed to Worms. They give rise to more disorders, and are the more fatal because less suspected, were parents to give this subject more attention and careful observe the symptoms which indicate the existence of worms in the bowels, *the lives of many children would be at all be saved.* Some of the symptoms are as follows: the countenance is of a pale or leaden color, and suffused with occasional flushes; the eyes are heavy and dull; bad breath; itching in the nose; the sleep is disturbed; the patient often awaking as if frightened, and is liable to grating and grinding the teeth; the appetite is irregular, being sometimes voracious and at other times failing occasionally in [illegible]

Winer's Canadian Vermifuge has acquired a reputation far exceeding that of any other vermifuge of the kind, and is daily increasing in popularity wherever it is known and used; it is universally approved. It possesses properties which no other article of the kind does; is more prompt and efficient in its action, and entirely free from ingredients which have any but a beneficial effect, the health of the patient being always improved even when no worms are discovered. Physicians prescribe it, and to use the language of one in high standing, who resides in Cleaveland, Ohio: consider it "the only article of the kind he ever saw that was so uniform and prompt in expelling worms"; it may indeed be relied on with the utmost confidence, as it has never been known to fail: this is the reason why *all* who have used it will not use any other.

We have in our possession a number of certificates from physicians and others of the highest respectability, who all testify to its superior efficacy and recommend it as a never failing remedy.

READ AND BE CONVINCED.

We, the undersigned, have frequently administered a medicine prepared by Mr. John Winer of this town, designated "J. Winer's Canadian Vermifuge," and being fully satisfied with its effects, confidently recommend it as a safe and efficient remedy for the expulsion of worms from the intestinal canal.

New York, March 20th, 1847.

Messrs. J. Winer & Co. Sirs—My child of five years of age was for more than two years severely afflicted with worms, during which time we gave her different medicines recommended in such cases, but they produced no beneficial effects. I at length procured a bottle of your Canadian Vermifuge, and gave it to her, which caused her to pass a large number of worms, since which she has been in the enjoyment of perfect health. From my experience, I would recommend your Vermifuge as being the most safe and effectual remedy for worms now in use. Yours truly,
